IMPROVED CRUSHING MACHINE.

C. H. COODMAN'S

Latest Improvement in

MACHINERY FOR CRUSHING, GRINDING, AND TRITURATING

Stone, Minerals, Pyrites, and Ores of every kind (dry or wet), Grahite, Flint, Concrete, Potters' Rough Stuff, Cement, Chemicals, &c.,

Also for Washing and Separating Metals from Ores, and Amalgamating Gold from Quartz.

This apparatus, from its many advantageous qualities, viz., Simplicity, Efficiency, and Cheapness, combined with Superabundant Strength, is rendered equal to the roughest work, likewise being comparatively light and easy of transit. The machine stands alone and

UNRIVALLED IN THE WORLD.

If the material is no required to be reduced finer than rough sand, or fine gravel, it may be worked or purchased without the Triturator, the same only being used in the production of fine powder. Likewise, the washing or amalgamating dish will only be needed when ores and quartz are in question.

The importance attached to this Machine is, that it is not applicable to one object only.—Its advantages may be summed up thus:—

1st.—The crusher consists of a horizontal ram, mounted loosely on an eccentric, by means of which a crushing and grinding movement is attained.

2nd—The material is reduced to its required size by simply setting the fixed face.

3rd—The two acting faces are moveable, and can be replaced in a few minutes at a trifling cost, which does not amount to one hundredth part the cost and trouble of rollers.

4th—Where the triturator is required, the material passes over a vibrating sieve (as seen in the illustration), the fine falling through, and the coarse passing into the disc hopper, where it becomes reduced to powder

5th—Where washing and amalgamating powers are required, the finely ground quartz is discharged into the dish containing quicksilver, wherein water is constantly poured, the whole being stirred by means of routers, and the mud and tailings pass off into a sluice attached to the lip of the dish, intended to catch what precious metal may have escaped amalgamation.

It may also be necessary to state the Triturating discs are constructed in such a way as to admit of long wear, and will work to the last without the slightest injury to the quality or fineness of the material.

THE MACHINES ARE MADE IN THREE SIZES.

No. 1. Crushing 20 tons per day of ten hours, Road metal
No. 2. " " 40 " " " Producing 4 tons of Quartz per 10 hours,
No. 3. Crushing 60 tons per day of ten hours Producing 8 tons of Quartz per 10 hours.

Extract from "THE ENGINEER," May 12, 1871, page 320

"The ram-head works against a fixed toothed face, and, if there were nothing more, stones put into the hopper would be simply crushed between the two—much as in Blake's machine. But here the similarity ends. It has been found that what we may best term a chewing action materially facilitates the breakage of the stones, and this chewing action is obtained by mounting the ram-head and its thrust-bar or handle on an eccentric close to the head. The motion attained by the use of this eccentric produces the precise effect required very efficiently. All the arrangements are very simple and mechanical and the machine appears to have nothing about it to get out of order. We were much pleased with it."

Esquimalt Graving Dock.

THE GOVERNMENT OF BRITISH Columbia are prepared to receive Tenders for the construction of a Graving Dock, at the Naval Station, Esquimalt Harbor, under the guarantee provided in the Twelfth Section of the Terms of Union of this Province with the Dominion of Canada, with Section is in the following words:—

"The Dominion Government shall guarantee the interest for ten years from the date of the completion of the work, at the rate of five per cent. per annum, on such sums, not exceeding £100,000 sterling, as may be required for the construction of a first class Graving Dock at Esquimalt."

The Dock to be of masonry, and of not less than the following dimensions:—
Length on floor 350 feet,
Do. over all 400 feet,
Width between copings 90 feet,
Do. on floor..... 45 feet,
Do. of entrance..... 63 feet,
to afford a depth of water on the sill of not less than 26½ feet at high water springs, and to be substantially constructed to the approval of Government, upon a site to be provided by the person whose tender may be accepted.

Further particulars as to site, borings, &c, may be obtained from T. A. BURNLY, Esq., Chief Engineer to Government, upon application in writing to the Chief Commissioner of Lands and Works.

Tenders must specify the time within which the Dock will be completed, and must be accompanied by drawings and descriptions showing exact dimensions, materials, and mode of construction of proposed Dock.

Tenders are to be sealed, superscribed "Tender for Esquimalt Graving Dock," addressed to the Chief Commissioner of Lands and Works, Victoria, British Columbia, and delivered at his office before noon of the 15th day of November, 1872.

Persons who may consider the above guarantee to be insufficient, are at liberty to tender on the basis of such supplemental guarantee by the Provincial Government, or upon such other financial inducements, as they may suggest.

The Government do not bind themselves to accept the lowest or any tender.

Each tender must be accompanied by a Bond from the Contractor, and two sufficient sureties, for the payment of £10,000 to Her Majesty, her heirs and successors, conditioned upon the due fulfilment of the tender which it accompanies, provided it be accepted within three months from the said 15th November.

By Command.
GEO. A. WALKEM,
Chief Commissioner of Lands and Works.

The Value of Immigrants.

No people in the world more fully appreciate the value of population, than our American neighbors—nor do any enter more heartily upon the work of transplanting the surplus thousands from the crowded centres of population in the old world to the unoccupied and fertile regions of this Western Hemisphere. Like the skillful actuaries employed by the various Life Assurance Companies who have made the subject of human longevity a study, and by a process of careful calculation determined the precise value of each individual life, the exact value of each immigrant to the State as he steps ashore from the deck of the vessel which carried him from the old world to the new, has been made the subject of such careful calculation that the authorities can tell almost to a positive certainty the value to the country of every man, woman and child the moment they touch American soil. They do not pursue that dog-in-the-manger policy with reference to their public or wild lands which has characterized the conduct of our rulers in the past, but taking the common-sense view of the subject that the wild lands of the country are of value to the nation only as they are located upon and utilized, they are thrown open to all comers who choose to become actual settlers, without money and without price, until such time as the Government has had them properly surveyed, when the occupants are required to pay therefor only the nominal sum of one dollar per acre, which money is immediately appropriated for the purpose of making good and substantial roads for the use and convenience of settlers. Hence the secret of the great success which has marked the efforts of the American people and Government to populate their country,—a success unequalled in the history of the world. Less than one hundred years ago the United States all told could muster only about four millions of people, whereas they to-day number nearly forty millions, and from thirteen States have multiplied until they now reckon, including territories, upwards of forty. The question is frequently asked, why is it that the United States have so far outstripped the British possessions in the contest for population and in the march of material progress? The secret lies in the more liberal policy of the American Government as regards the disposition of their wild lands and the fostering care which they have in years gone by bestowed upon the labors of the people in the development of the latest resources of the country. It is true that the red-tape influence exercised by Downing street officialdom over the affairs of the various British Provinces has had much to do in cramping the energies of the people and turning the tide of immigration from the Provinces toward the United States; and although that obstacle in the way of our progress has been entirely got rid of, like changing the course of a mighty river whose channel has become both wide and deep, it will require many years of unremitting toil, expenditure, skill in political engineering, and wise legislation in order to overcome the difficulties which a fatal and foolish policy has placed in the way of the settlement and development of the country. The present policy of the Dominion Government we believe to be eminently calculated to produce the desired result. Profiting by the experience of the American States in attracting population, the Federal and Provincial Governments have determined that no effort shall be spared to win population, by the offer of even greater inducements to settlers than they can obtain in any of the American States. While in the States every immigrant is required sooner or later to pay into the Federal Treasury the upset price of one dollar per acre for his land, in most of the Provinces the free grant system has been adopted, and all the settler is required to do to acquire an absolute fee simple title to his land is to perform settlement duty by becoming a *bona fide* settler upon his claim. We therefore entertain the opinion that in the future the contrast as regards the growth and population of the two countries will not be so wide as it has been in the past, but that when the Dominion of Canada shall have numbered as many decades as the United States now do, those who shall be then living to see it will witness as wonderful a progress in population and material development as our American cousins now contemplate with such just pride and satisfaction as regards their own magnificent country. The following extract from a recent number of the New York *Times*, bearing upon the subject of immigration, will well repay perusal:—"In the returns which will be made to the United States Treasury of the imports pouring in at this port, during the past year, one most lucrative portion will be entirely omitted. A golden tide flows into this harbor, which is estimated by no Bureau of Statistics, and whose product appears in no reports of the Board of Trade. On Sunday last, as we were the first to inform the public, ten thousand immigrants landed at the Castle Garden Depot. It would be interesting to estimate what was the value of that single importation. Careful investigation, in former years, shows that each immigrant will bring on an average a cash and outfit capital with him of $150 to each person. Here, accordingly, is an unnoticed import of a million and a half of dollars in a day. But this is only a small portion of the import. What is the immigrant himself worth in the market? The average value of a good field-hand in the South, before the war, was reckoned at $1,200, and over. A good cook was worth more, and a seamstress was sometimes valued as high as $2,000. White labor—considered merely economically—must be worth much more. One of the former Commissioners of Emigration—Mr. F. Kapp, a well-known historical investigator—has estimated the value of each immigrant from the cost of raising him, which, from various data, he put at $1,500 for the males and $750 for the females, or an average of $1,250 for each. Another writer on this subject, however, has demonstrated that another element in the value of a human being, besides the expense of bringing him up, is the demand for him, so that, of course, the unskilled, the feeble, and vicious, and minor immigrants must be estimated at less than the skilled, able-bodied, and virtuous. It happens, however, that only about five per cent. of the present importation are vicious or helpless, and only twenty-two per cent. are under fifteen years of age, while fifteen per cent. belong to a class of much more productive value than the common laborer; so that we may safely reckon the whole as worth the cost of raising them—or as much as common laborers cost here to be brought up and educated. Moreover, the labor of nearly all is in demand in this country, so that we may safely estimate from this basis each immigrant as worth at least $1,100. Another mode of estimating the laborer's value to the country would be by deducting his expenses and wages—if on a farm—from the value of his labor. A farm laborer now, we suppose, costs at least $300 per annum for wages, and $200 for "keep," or say $500. The value of his labor would generally be estimated at $575 to $580, leaving a clear profit to the farmer on each hand of 15 to 18 per cent. This profit is the immigrants' pecuniary value to the country, which, at 7 per cent. interest, would represent some $1,100 or $1,200 capital. There will be then no exaggeration in estimating each of the 10,000 emigrants who landed here on Sunday last, as worth some $1,200 to the country. There is then an additional import of $12,000,000 of capital, which no statistician or Custom-house officer observes. Over thirteen and a half millions of dollars are poured into this port in a single day, and then flow over the country in fertilizing rilis. It is a silent, enriching golden tide. It is a capital, too, which is constantly reproducing itself."

Public School Notice.

NOTICE IS HEREBY GIVEN that a special meeting of the House holders and Freeholders of Sooke School District as defined on the Official Map, will be held at Springside Farm, Sooke, on Thursday the 11th day of July, at 12 o'clock noon, for the purpose of selecting a site for a School House.
By order of the Trustees.
F. TURNER, Secretary.
Sooke, June 25th, 1872. je28-1aw

To the Electors of Victoria District, including Victoria City, Victoria District, Esquimalt and Metchosin.

GENTLEMEN:—In a short time you will be called upon to elect two members to represent you in the House of Commons, and as many electors have expressed to me a desire that I should offer myself as a candidate for that honorable position, I now solicit your suffrages assuring you that if elected, no effort on my part shall be spared to advance your interests at Ottawa or to assist in legislating for the advancement of the whole Dominion.

Politically I am in favor of giving a generous support to the present Canadian Administration, and should strongly advocate the national importance of the Railroad being terminated at Esquimalt. I shall urge the establishing of a Quarantine Hospital at once, the opening of an Immigration Agency at Victoria, the building of a Lighthouse at the entrance to, and the Dredging of Victoria Harbor, I should endeavor if necessary to obtain an increased guarantee for the Dry Dock, and should point out the benefit and importance of completing the Railroad from the Pacific to Lake Superior, (at least) in the shortest possible time.

From present information upon the subject it appears there is little prospect of both Houses being in Session this year at the same time, but should it prove otherwise and should I be elected to the Commons, I should feel in honor bound, (although with great reluctance) to resign my present seat in the Local House and enable another representative to take my place.

I remain respectfully
Your obedient
Robert Beaven.

The Daily Standard

Wednesday, July 3, 1872.

POLITICAL.

We are authorised to state that Mr. DeCosmos will be a candidate for the House of Commons at the next election.

MARRIED.

In this city by the Rev. Mr. Pollard, at the Wesleyan Parsonage, on the 26th of June, Jonathan Prince, and Zaldee Turner, of Olympia, W. T.

By the same, at the Wesleyan Parsonage on the 2nd inst., Henry Charles Poole, and Caroline Kreuz, both of South Saanich.

In this city at St. Andrew's Church, by the Rev. Mr. McGregor, Donald McKay, to Harriet, only daughter of the late Thomas Cotsford, both of Victoria.

Dominion Day. The Celebration by the Fire Department.

The fifth anniversary of the Union of the four Provinces, Ontario, Quebec, Nova Scotia, and New Brunswick, was held in this city as throughout the Dominion, on Monday, as a public holiday. So far as the weather here was concerned, it was all that could be desired, and contributed largely to the enjoyment of pleasure seekers. Throughout the whole of the day the stores and offices of the city were closed, and people generally betook themselves to the country to enjoy the balmy air. The city was gaily decked with bunting; from every staff floated a flag, representing some nationality, and noticeable among them was Messrs. Davies large Dominion flag, a new one just had from England, for the day.

Shortly before noon, the Fire Department was summoned at the engine houses of the respective companies, for parade, and to march to the picnic, the feature of the day's celebration. The several companies having gathered, proceeded soon afterwards to the grounds, accompanied thither by a large concourse of persons,—Haynes Band, numbering fifteen performers leading the way. The officers and men were in full uniform,—red shirts, black pants, white gloves and hats; the banners of the various companies were borne in the procession and lent attraction to the scene. Having arrived on the grounds, which were kindly given for the occasion of the picnic, by Sir James Douglas, preparations which had been going on for several days, were made complete, and soon the throng began to swell. The place selected, was most picturesque, and well shaded from the sun's rays; a magnificent view of the Straits, and of the city counld be had from the rocks, which on all sides bounded the spot chosen for the event. Dancing was commenced and kept up from about 2 p m. till midnight; a large platform had been erected for this purpose. It will be remembered that Medana's Grove had been announced for the picnic, until within a few days of the First, but had to be abandoned on account of the close proximity of the small pox hospital. The Department to overcome what at first would seem to be a drawback, went to work with a will and succeeded in obtaining new grounds, erected platforms, booths, swings, cleared the ground for the sports mentioned below,—in the end making their entertainment a perfect success, financially and otherwise

The Lieutenant-Governor and family with a party from Government House—which is quite adjacent to the ground—visited the erable time. His Excellency and party stole picnic in the afternoon, and remained a consid a march on the Reception Committee, who were engaged attending to their respective duties, but the arrival of the Governor was announced by the band playing the National Anthem. The Governor, Mrs. Trutch, Miss Pinder, Mrs. Powell, Mrs. Pickett, the Hon. Mr. McCreight, Hon. Mr. Walkem and Capt. Cator, R. N., formed a set, and took part in a quadrille. The Reception Committee—Messrs. Richards, Gowen and Loshe—afterwards entertained the party with refreshments, which were provided in the "Grotto Retreat." The grounds and platform were gaily dressed and embellished with flags, banners and evergreens, and in the evening the numerous oil lamps cast their glare over the scene, making it look a paradise.

We have been favored with the programme of the sports, with the winners, and which we subjoin.

Standing long jump—1st prize, Smithe, 10f 9½in; 2d, H. Price, 10f, 6in.

Running long jump—1st prize, W. Snider, 15f, 5½in; 2d, H. Price, 14f, 5in.

Standing high jump—1st prize, H. Price, 3f, 10in; 2d, R. Hamilton, 3f, 10in.

Running high jump—1st prize, Smithe, 4f, 7in; 2d, Hamilton, 4f, 4in.

Hop, step and jump—1st prize, Robertson, 34f, 9in.

Putting heavy shot—1st prize, H. Dwyer, 20f, 9in; 2d, R. Mckenzie, 20f, 1in; 3d, no prize, A. B. Gray, 20f, ½in.

Foot race, 100 yards—1st prize, H. Price; 2d, J. Todd.

Foot race, 200 yards—1st F. Norris; 2d, Todd; 3d, Smithe.

Firemen's race, 200 yards—1st prize, F. Norris; 2d, F. Allatt.

Foot race for boys under 15 years—1st prize, J. Roberts; 2d, H. Tolmie.

Three-legged race, 100 yards—1st prize, Stuart and Norris; 2d, Gregg and Morley.

Girls' race, 75 yards, under 14 years—1st prize, J. Nelson; 2d, Eliza Crowther; 3d, E. Lawrence.

Girls' race, No. 2—1st prize, Lizzie Dacy; 2d, A Johnson; 3d, A. Crowther.

Sack race, 75 yards—1st prize, J. White; 2d, Crogan; 3d, Baker.

Race for Firemen over 45 years—1st prize, McNiffe; 2d, J. Dickson.

Race for boys under 12 years—1st prize, T. Price; 2d, J. McDowell; 3d, A. Elliott.

Catching pig by greasy tail—Oliver Jackson and Tom Bowlin.

Ex-Chief Engineer Duck, starter; F. Saunders and J. Wrigleswortb were judges.

FURTHER OF THE BELLEVILLE RAILWAY DISASTER.—Belleville, (Ontario,) June 24—A post mortem examination was held this afternoon on the bodies of those who were killed by the late accident on the Grand Trunk Railway. The number of deaths up to this time is thirty, including a number of lumbermen and telegraph line builders from the province of Quebec. The coroner's jury fully exonerates the company and engineer from all blame, the cause being purely accidental. The engineer, a sober and efficient man, died at his post.

SAANICH.—A preliminary meeting, of the settlers of North Saanich was held on Saturday last for the purpose of taking measures towards the erection of a school-house; application will be made to have the district constituted a school district, in accordance with the Act. The site chosen last year, will probably be selected for the school building. A picnic will be held to-morrow, the 4th of July.

FOR THE SOUND.—The North Pacific, left at 12 o'clock yesterday, for Olympia, with a large number of passengrs, among whom were the Nine of the Olympic Base Ball Club of this city, who have gone over to play the match game with the Washington Club.

ANOTHER BLOODY "MUSS."—The Orangemen of New York have obtained permission from the Board of Police to parade on July 12th. Six thousand men will turn out.

YOUNG FISH KILLED BY LIGHTNING.—CHICAGO, June 20—During a recent thunderstorm the Hon. D. L. Hannon lost 50,000 young trout, valued at $3,000. It is believed that they were killed by lightning.

Washington Territory.

The steamer North Pacific arrived here on Monday afternoon at 2:15 o'clock, with a light list of passengers, some fine beef cattle, and a small amount of freight. The travel on the Sound line this summer appears much less than that of last season, yet a better trade is anticipated during the autumn months. The sensational and absurd reports of some of the Sound papers concerning the small-pox, is a damper on travel, and business as well. There has been only one death by this disease in Portland, and only eight or ten cases reported during the whole season; those few are now all convalescent, or well and hearty. The most stringent regulations are in force; the hospital is three miles from town. The "scare" at Olympia has now about subsided. Mr. Breckenfield, one of the passengers from the Prince Alfred, has only a severe type of the varioloid, instead of the small-pox, and is doing well. No other case exists on the Sound, nor is it likely there will be any.

A party of capitalists from Pittsburg, Pa., seven in all, came up on the last trip of the California. Two of them are large stockowners in the N. P. R. R. Co.; they are Messrs. Dilworth and Porter. After spending two days in this city they proceeded up the Sound, and thence to Portland, to get a view of this northern slope, such as one may obtain by a flying visit. They were pleased with Victoria and with the harbors of the Sound. They were especially taken with the splendid accommodation and attentions afforded by Capt. Starr, in the North Pacific. They voted this northern coast the finest body of water for harbors, to be found anywhere.

Gen. Sprague and Chief Engineer Morris, of the Western Division of the N. P. R. R., arrived on the Sound this week, to look after the interests of that enterprise; whether they locate the terminus or not, our informant can't say at this writing. Travel is increasing somewhat since Mr. Miskel has placed an opposition line of spring vehicles between Olympia and the Columbia.

The mills on the Sound are all running, some of them night and day, and there is a great scarcity of hands at nearly all. Mill owners now pay from $40 to $75 per month, and board, which is much higher than old rates.

The Discovery Mill Co. will soon commence to build a 300 ton schooner, which is to be completed this season. The Company has just completed one of 200 tons, and dispatched her loaded to San Francisco. Among the mills needing more hands are those of Gamble, Discovery, and Seabeck, and probably others.

Vessels arrived at Port Townsend, W. T.: June 28—Ship Alverez, from Callao. June 30—Ship Martha Cobb, from Callao; ship Reviere, barks B. Aymar and Arbor, from San Francisco; bark Atlanta, from China; barks Northwest, from San Francisco, for Port Madison.

Supreme Court.

(Before Chief Justice Begbie and Mr. Justice Crease.)

MONDAY, 1st July, 1872.

Ord vs. Drinkall.—On application by the Hon. Attorney General Mr. McCreight, instructed by Mr. Bishop, the Court after some deliberation granted a rule misi for a new trial herein. Cause to be shown before the 1st of August next.

PANTHER SHOT.—A son of Mr. Peatt, Colwood, brought to the city Magistrate yesterday the head of one of the largest panthers every seen in the district, and got his bounty for destroying the beast. Before destroyed it had just killed a large sow which had been fighting for life for half an hour previously, before yielding to the monarch of the forest. Its screams could be distinctly heard, but the boys judged it dangerous to attack the panther at the moment. It fell however shortly afterwards, to a cartridge from the gun of Mr. Alfred Peatt; and when shot was in the act of tearing his dog, which was thus timely released from the beast's grasp.

THE SCOTTISH GATHERING.—We yesterday visited the Caledonian Society's grounds, Cook street, and found great preparations going on for their annual reunion, on the Fourth of July, to-morrow. A most artistic platform is being erected; on the right is a projecting porch with door in the centre, steep pitched gable and weather mouldings springing from boses of foliage designed for the music stand. There is a platform of about 2,400 feet of floor area, and the whole will be roofed over with sail cloth; once the decorations are finished, the *tout ensemble* will present a very enchanting appearance.

THE N. P. RAILWAY.—From an entirely reliable source writes the Olympia *Tribune* we have a confirmation of the statement in our columns last week, viz., that the N. P. Railroad Company design finishing the branch to Olympia before another winter arrives. This the directors have resolved upon, as has already been stated more than once, and the only obstacle in the way of its speedy realization is the want of laborers. Eight hundred additonal men would be put to work instantly, if they could be obtained; and this large force, combined with the gangs now employed on the road, beyond a doubt would complete it within the time specified.

SETTLING UP.—The various islands in the Archipelago are gradually obtaining settlers; a new house can be seen here and there where a piece of land may be had. The farmers are only now beginning to realize their altered circumstances when the question of the San Juan boundary shall have been settled. As matters now stand, they pay no taxes, contribute nothing for their lands, &c., but all this will be altered when the Emperor shall have rendered his decision. The trade of Victoria, and the Province as a whole, receive much benefit, and have been gainers by the American Garrison, and its withdrawal, in the event of Great Britain obtaining the sovereignty, will be felt.

METCHOSIN.—Mr. Weir suffered the loss last week, of a bullock which had been killed and part thereof taken away; also a sheep and a hog. It is supposed that parties from the other side of the straits were the depredators, possibly the free booters who a short time since, visited Burrard Inlet and the islands in the Straits. The keeper of the Race Rock Light, saw a boat on the morning of the occurrence, cross the Straits, and suspicion naturally rests upon those parties.

CEMETERY BOARD.—There was a meeting of this Board yesterday; all the members except Mr. Pearse were present. Several communications were read, and action therewith deferred. No decision has yet been come to with reference to a site for the Cemetery, but we understand the feeling of a majority of the Board to be in favor of using the ground they now have in possession at Ogden Point.

COUNTY COURT.—YESTERDAY.—James Kelly vs. H. O. Tiedeman, suit for $20 for work done; defendant paid into Court $15, and costs. Adjourned till November. Wm. Lush vs. Wagner,—cross action, adjourned one day. John Wagner vs Wm. Lush,—case adjourned from last Court, adjourned one day. Sam Chong vs. Woodhams,—suit for $5 50; adjourned one day.

THE TELEGRAPH.—A portion of the wires lie prostrate at Saanich, caused by the trees which are being felled by the road repair party.

THE BASE BALL MATCH TO-DAY.—The Washington Club of Olympia will be represented by: L. A. Treen, captain and catcher; Silas Lowe, pitcher; J. B. Huntington, first base; R. G. O'Brien, second base; Cal. McFadden, third base; Frank Treen, short stop; A Harker, left field; G. W. Parker, center field. J. B. Norwood, right field. The names of the Victoria Club are already kuown, and they left for their "work" yesterday by the North Pacific.

LAKE.—There is good trout fishing on Beaver Lake, in this district, at the present time. Several sportsmen visited the place on Monday; a party of two carried to town seventy or eighty pounds of excellent fish—very large. We regret to hear the crops will be light, the want of rain has caused a very light yield.

WOMAN SUFFRAGE.—Mrs. Frost, who some time since defrauded the Victoria public, is lecturing in San Francisco. Certain female supporters of the suffrage question had met at the hall where the lecture came off and kicked up a most disgraceful row, brandishing pistols and using anything but lady-like decorum.

THE CABLE.—The Etta White, with the telegraph scow in tow, returned from Lopez Island on Monday afternoon, and returned from Esquimalt yesterday noon, with a new cable which it is found necessary to submerge in place of the present one.

NEW SCHOONER.—Sabiston's new schooner, to be used as a pilot boat, recently launched at San Juan Island, came into this port on Monday morning. She looks a staunch craft of twenty tons burthen, and is noticeable by her more than ordinary breadth of beam. The vessel left for Nanaimo yesterday.

FOR THE EAST COAST.—The steamer Sir James Douglas, left at 7 o'clock yesterday morning for Comox, and way ports, with a large freight and a considerable number of passengers, among whom were Mr. Richardson of the Canadian Geological Survey, and party.

ESQUIMALT.—The vessels in port on Dominion Day were dressed in honor of the day. A salute would have been fired, we believe, had a request been made by the authorities. A gunboat went out yesterday morning to look after runaways, seven of whom have left for the other side.

FOR THE MAINLAND.—The Enterprise, Capt McNeil, left at noon yesterday, for New Westminster, with the following passengers, Mr and Mrs. J. Nelson, Capt. Parsons, Messrs Smeaton, Jeffrey and Robertson.

THE small pox is considerably on the increase in San Francisco. Five cases were sent to the hospital one day last week and three more were to be sent the next day. Among the parties having it was Michael A. Polyman, who was in his own house and refused to be moved. He had a pistol by his side and threatened to make a job for the Coroner if he were interfered with.

POLICE COURT.—George McKenzie was convicted yesterday of supplying Indians with liquor, and was sentenced to pay a fine of $250, in default six months' imprisonment.

WE notice in the *Engineering and Mining Journal* of May 28th, the names of Henry Janin and George Hearst, of San Francisco, and Charles C. Lane, of Victoria, elected members, of the American Institute of Mining Engineers.

COMING TO THE SOUND.—The British Columbia Indians, during the last week, have been coming to the Sound by hundreds and thousands to avoid the small-pox. The Straits and lower Sound are said to be lined with their canoes and camps.—*Olympia Tribune.*

POLITICAL.—We hear that P. H. Clarke, Esq., of the Lower Fraser and Victoria, will contest the New Westminster District with Mr. Nelson, for the Ottawa Commons. We understand that Mr. Wallace will contest the district which he has lately filled.

AUCTION.—Will be sold at auction to-day by Messrs. Davies, a large, varied, and desirable lot of ladies', gentlemen's and children's boots and shoes. The goods comprise, English, American and Canadian.

MARRIAGE.—A Highland wedding took place last evening at the Presbyterian Church, and caused much attraction. The groom appeared in full Highland costume.

MR. THOMPSON, M. P., returned from Ottawa on Monday, by the North Pacific.

The Victoria Brass Band.

EDITOR STANDARD:—In order to refresh the memories of many of our citizens I would state that in the month of February last a gentleman assuming the dual offices of Secretary and Treasurer of the then existing Institution called the Victoria Brass Band, announced that a grand ball would take place on St. Valentine's Day, having for its object the augmentation of the funds of the Institution, in order to enable him to purchase new instruments. Accordingly the ball came off, and in a pecuniary sense of view, I believe was very successful; musically it was not considered so, although the chief officer has the reputation of being able to dispel more wind than any other blower of a horn on this coast. Large hearted charitable people down here took into consideration that after the new material would have been purchased a treat in that way might be obtained. But alas, Mr. Editor, for the mutability of all things mundane, Mr. Secretary and Treasurer recently intimated that his blowers had dispersed—would no longer come at the sound of their Master Whistle. Now I would like to ask this Secretary and Treasurer of our late band under whose fostering care such grand results have been obtained, what has become of the money which the generous music loving, music expecting people of this city have confided to the care of this wonder working Apollo of ours; what of receipts and expenditure? I wonder to what purpose does he intend to devote the balance at the credit of the late Band.

SEMIQUAVER.

VICTORIA, June 28th, 1872.

The Twentieth.

EDITOR STANDARD:—I hope it will be to the B. C. Pioneer Society, that Victoria will be indebted for a grand gala day on the 20th inst., the day that all British Columbians ought to celebrate; the day upon which we were admitted into the Dominion of Canada. As I have heard of no celebration for that great and glorious day, that made us second to no nation under the sun, I hope that the Pioneer Society will not let the 20th pass without giving us something good; let us have an oration, and let us, and strangers know, what progress and promises have been made, and kept by Canada towards British Columbia, since that eventful day the 20th of July 1871.

AN OLD FIFTY-EIGHTER.

VICTORIA, B. C., July 2nd, 1872.

General Dispatches.

LONDON, June 26—The International Copyright Treaty between Great Britain and Germany has been drafted at Berlin.

TORONTO, June 26—Dr. Rufus Bratton, who was abducted June 4th by American detectives from Yorkville, South Carolina, has been returned to Canadian jurisdiction.

BOSTON, June 25—Irish organizations are forming a parade to receive the Irish band next week. Fenians will also turn out.

President Grant, who is making a visit, dispenses will all formalities. He attended the Commencement exercises at Harvard this morning.

WASHINGTON, June 25—Commissioners Brunot and Cree leave to-day on a tour among the Indians of Dakota, Montana, Idaho, Wyoming, Utah and Colorado. The objects are to avert threatened hostilities on the part of the wild Sioux on the northern Missouri river, to purchase a portion of the reservation in Colorado, to effect an exchange of the southern part of the eastern Shoshone and Bannock reservations in Wyoming for lands north, and a general examination into Indian affairs.

General Walker is here with a delegation of Indians representing several tribes of Arizona, who want to have confirmad a treaty of peace recently made at Camp Grant.

The June Report of the Department of Agriculture is now in press and is exhaustive. It gives wheat statistics based on counties, of which 199 indicate the average condition, 270 above average and 434 in low condition. These 903 reports include a very large proportion of the wheat portion of the country. The summary of returns shows a reduction of 2 per cent. from 1871. The general average condition of the entire crop, taking 100 as the standard, is 94. The Department estimate of the crop of 1871 was 23,000,000 bushels, at 11½ bushels per acre. Considering 12 bushels as the average yield of the acre and condition of the present crop in the first week in June, it pointed to a product of 220,000,000 bushels in 1872. The crop of 1869 was about 16 per cent. above average. The largest record in ten years was 287,000,000 bushels, as returned by the census.

A Washington special says the State Department has received dispatches from Geo. Holt, our Consul at Gaspe Basin, Canada, to the effect that the Captain of the Dominion Cutter, Stella Marie, has captured the American schooner, James Bliss, for an alleged violation of the Dominion laws, and brought her into port with the Dominion flag flying at her peak over the American flag, which was union down. Our Consul protested against the insult, but it was repeated, and it is understood that the act was sanctioned by the highest Dominion authorities.

Graving Dock.

EDITOR STANDARD:—I would wish, through your columns to draw the attention of the Government to a matter which strikes me as being of no small importance. The advertisement inviting tenders for the construction of a Graving Dock, specifies the extreme length to be 400 feet. We have lately been advised of the remarkable success of the steamship "Adriatic" both in steaming and sea going qualities, the length of said steamship being 450 feet. It is therefore presumable that on the completion of the Canadian Pacific Railway a class of steamers not inferior to the crack ships of the Atlantic will be placed on the various routes of the Pacific. Should this surmise prove true, would it not be a source of regret that the Graving Dock about to be constructed should be found, after an expenditure of some one hundred and odd thousand pounds, *too short* to dock such vessels when required. There are several contingencies in connection with this subject worthy of consideration. In the 5 or 6 years which the Railway will absorb in building the advantage that length gives to speed in steamships, will be more fully developed and generally adopted, and the probabilities are that by the expiration of that term Ocean steamships on first class routes will not be less than the length of the new steamship "Adriatic," and the fact of possessing a dock capable of accommodating such vessels would be an immense advantage to this Province, not the least of which would be the effect it would have upon insurance by giving confidence to underwriters. As this is a subject in which the whole Dominion is mutually interested it is to be hoped that it is not yet too late to adopt the suggestion which I feel confident must commend itself to every one interested in shipping and commerce, whether in the old world or in the new.

Yours, &c.,

JACQUES.

B. C., June 28th, 1872.

This is the ——.

Sir Charles Dilke is not "original" after all. This, from an unpublished (as yet) book by a Miss Grafton, shows where he got his cue from.

This is the Castle of Windsor.

This is the Queen that lived in the Castle of Windsor.

These are the ladies that tend on the Queen, that lives in the Castle of Windsor.

These are the pages that bow to the ladies that tend on the Queen that lives in the Castle of Windsor.

These are the lackeys that wait on the pages that bow to the ladies that tend on the Queen that lives in the Castle of Windsor.

These are the soldiers, tried and sworn, that guard the crown from the unicorn; that stand by the lackeys that wait on the pages that bow to the ladies that tend on the Queen that lives in the Castle of Windsor.

These are the "military knights" forlorn, founded by Edward before you were born, that outrank the soldiers tried and sworn, that guard the crown from the unicorn, that stand by the lackeys that wait on the pages that bow to the ladies that tend on the Queen that lives in the Castle of Windsor.

These are the knights that the garters have worn, with armorial banner tattered and torn, that looks down on the military knights forlorn, founded by Edward before you were born, that outrank the soldiers tried and sworn, that guard the crown from the unicorn, that stand by the lackeys that wait on the pages that bow to the ladies that tend on the Queen that lives in the Castle of Windsor.

This is the dean, all shaven and shorn, with the cannons and clerks that dose in the morn, that install the knights that the garters have worn, with armorial banners all tattered and torn that looks down on the military knights forlorn, founded by Edward before you were born, that outrank the soldiers tried and sworn, that guard the crown from the unicorn, that stand by the lackeys than wait on the pages that bow to the ladies that tend on the Queen that lives in the Castle of Windsor.

THE LOWEST TYPE OF HUMANITY.—On the Island of Borneo has been found a certain race of wild creatures, of which kindred varieties have been discovered in the Philippine Islands, in Terra del Fuego, and in South America. They walk unusually, almost erect on two legs, and in that attitude measure about four feet in height. They are dark, wrinkled and hairy. They construct no habitations, form no families, scarcely associate together, sleep in caves and trees, feed on snakes and vermin, on ants, eggs and on each other. They cannot be tamed or forced to any labor, and are hunted and shot among the trees like the great gorilla, of which they are a stunted copy. When captured alive, one finds with surprise that their uncouth jabbering sounds like articulate language. They turn up a human face to gaze at their captors, and females show instincts of modesty; and, in fine, these wretched beings are men.

WE wonder what induces David Green the clothier of Government street to advertise, as everyone is aware that he keeps the best fashionable made clothing store north of San Francisco.

VERSAILLES, June 26—It is stated that negotiations to complete the evacuation of France by the Germans will soon be brought to a favorable conclusion.

THE U. S. Government has made an appropriation for the introduction of shad into the waters of the Pacific.

REAL ESTATE SALE.

First Class

DR. CHING FUN—A CARD—EDITOR STANDARD:—Through the medium of your paper I want to state the very great good that has been done me by Dr. Ching Fun of this city, next door Kwong Lee & Co For 24 years I suffered with neuralgia on the brain, which baffled the skull of three first-class American physicians. Latterly bronchitis attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I proceed myself as a last resort in the hands of Dr. Ching Fun, and after five months treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit and find relief, Respectfully,

JOHN HENTON, of Kentucky, U. S.
